

FOR TEACHERS

Help students discover what they can do

A practical guide to supporting students through the International Skill Championship.

FOUR TRACKS · CLASSES 5-12 · TEAMS OF UP TO THREE

YOUR ROLE

You turn interest into a confident first step

You do not need to be an expert in any track. The work students need most is encouragement, a sensible track choice and a check that the submission is complete and their own.

Help students find their best-fit track

Classes 5-8 and 9-12 divisions · Students may enter multiple competitions

TRACK 01

AI for Impact

Practical problem-solvers who want to build something that works.

TRACK 02

Young Entrepreneurship

Students with an idea and a point of view they can defend.

TRACK 03

Puzzle Master

Individual students who enjoy logic, speed and reasoning under pressure.

TRACK 04

Content Creator

Students who can tell a compelling story on camera in sixty seconds.

AI for Impact extends India's school innovation push

Aligned with Atal Innovation Mission, NITI Aayog, and the national expansion of school innovation infrastructure.

50,000 new Atal Tinkering Labs

The Union Budget 2025-26 announced new labs in government schools over five years to widen hands-on access to innovation.

Skills the policy is building

Atal Tinkering Labs develop design thinking, computational thinking, prototyping and solution-building among school students.

Where ISC adds value

Students turn those capabilities into working apps and digital tools that address a social-impact problem of their choice.

Young Entrepreneurship advances school innovation

Aligned with the Ministry of Education's School Innovation Council, AICTE and CBSE.

A national school pathway

School Innovation Councils promote year-round innovation and entrepreneurship activity in schools in line with NEP 2020.

Entrepreneurial capabilities

The agenda includes ideation, design thinking, intellectual property, startup finance, entrepreneurship and prototype development.

Where ISC adds value

Students shape an original venture idea, document it, pitch it in one minute and compete for mentorship and support to scale.

Content creation plugs into India's Orange Economy

Aligned with the Union Budget 2026-27 push for AVGC skills and a national creator-talent pipeline.

15,000 secondary schools

The Government announced AVGC Content Creator Labs for secondary schools, alongside 500 colleges, with an outlay of INR 250 crore.

Skills for the Orange Economy

The initiative expands access to animation, visual effects, gaming, comics, digital storytelling and content-production skills.

Where ISC adds value

Students respond to a Skill Fleet theme with an original one-minute video, building portfolios, confidence and national visibility.

What each track requires

The submission standard, track by track.

AI for Impact

A functional app or prototype, plus a concise explanation and demonstration. Teams of up to three.

Young Entrepreneurship

A structured document covering problem, solution, audience, impact, feasibility and business model – plus a one-minute pitch.

Puzzle Master

Timed online participation only. Individual entry, in Classes 5–8 or Classes 9–12.

Content Creator

One original video, sixty seconds maximum, on Skill Fleet's annual theme. Teams of up to three.

A consistent national prize structure

Winning is paired with mentorship and practical next-step support.

AI for Impact

Prizes up to INR 1 lakh, plus mentorship, deployment guidance and support to scale.

Young Entrepreneurship

Prizes up to INR 1 lakh, plus mentorship and venture-building support to scale.

Puzzle Master

Prizes up to INR 50,000 across the Classes 5–8 and Classes 9–12 divisions.

Content Creator

Prizes up to INR 1 lakh, plus mentorship and creator or brand support to scale.

Good coaching is three simple moves

Repeat the loop until the submission is genuinely ready.

01

Clarify

Help the student choose a real problem, a specific idea or a clear angle on the theme.

BEFORE THEY START

02

Practise

Use feedback, demos and – for Puzzle Master – Brainweave practice sessions.

WHILE THEY BUILD

03

Refine

Check completeness, clarity and the one-minute video limit before submission.

BEFORE THEY SUBMIT

A submission checklist worth running

Six checks that prevent most avoidable disqualifications.

01

Complete

Every required element is present – document, video, demo or prototype.

02

Original

The work is genuinely the student's own, and they can explain every part of it.

03

Within limits

Video entries are sixty seconds or under. Longer entries are not accepted.

04

In language

English or Hindi. Both are accepted equally across all four tracks.

05

Team size

Three students maximum, and only where the track permits teams.

06

Consented

Parental consent is in place for every under-18 participant.

Participation creates impact beyond the entrant

Participation itself contributes to a larger education mission.

FOR EVERY PARTICIPANT

One more student receives a year of education

- The match is one-for-one with the number of students entered
- The education commitment runs for one year
- Delivered with Edufleet and Golden Ceep Foundation
- No student needs to win for this impact to count

FOR THE SCHOOL

A Social Impact Certificate

- Recognises the school's contribution through participation
- Sits alongside media coverage and participation recognition
- Digital participation certificates go to every student
- Winner certificates recognise top performers

Fairness, ownership and consent

The rules that protect your students and your school.

HOW ENTRIES ARE JUDGED

Centrally, against internal rubrics

- Skill Fleet runs an internal evaluation panel
- Track-specific scoring rubrics are applied consistently
- Detailed rubrics are kept internal to the programme
- The same standard applies at every stage

WHAT STUDENTS KEEP

Ownership of their own work

- Students retain ownership of everything they submit
- Skill Fleet is licensed to showcase entries for the championship
- Parental consent is required for all under-18 participants
- Consent also covers video use and winner announcements

Dates worth putting in your calendar

Two online rounds, then one event.

Launch – introduce the programme to students

SEPTEMBER 2026

Online state championship for qualifying students

POST-SCREENING

Optional workshops and free school screening

ACADEMIC YEAR

In-person national finals, host city to be announced

APRIL 2027

NEXT STEP

Your encouragement changes the trajectory

Most students will not enter unless someone tells them they should. The school screening round is free, online and open to every one of them.
