

STUDENT AI WORKSHOP · 2026-27

3 Hours. AI-Smart Students.

Day One. Future-Ready Learners.

A practical **3-hour hands-on workshop** teaching school students (Class 6–12) to use AI responsibly for studying, research, revision, projects, exam prep, and career planning.

POSITIONING

Not an AI awareness talk. **A hands-on workshop where every student builds real study tools — and learns when NOT to use AI.**

WORKSHOP FORMAT

3 hours

on-site

single session

Class 6–12

SKILLS COVERED

Smart Studying

Research & Reading

Notes & Revision

Projects & Presentations

Exam Prep

Responsible AI Use

CBSE
aligned

NEP 2020
ready

HANDS-ON
not theory

WHY NOW

Your students already use AI. Just **not well, and not safely.**

92%

of students now use AI for studies

Up from 66% in 2024. Most without any guidance or training.

Digital Education Council, 2025

69%

use ChatGPT for homework

Copy-pasting answers instead of using AI to understand concepts.

College Board Research, 2025

55%

worry AI hurts academic integrity

Students themselves know the risk. They need rules, not bans.

Tecnologico de Monterrey Survey, 2025

FOR SCHOOL LEADERSHIP, THE REAL QUESTION IS

✗ OLD QUESTION

~~Should we ban AI in school?~~

✓ TODAY'S QUESTION

Will students learn to use AI responsibly, ethically, and in a way that deepens real learning?

THE STUDENT STRUGGLE

Students spend **hours on tasks** AI can accelerate — if used right.

EVERY WEEK, HOURS LOST ON:

Making notes from textbooks

Research for projects

Understanding tough concepts

Solving practice questions

Writing essays & answers

Making presentations

Revision & exam planning

Language & grammar help

Career & college research

THE LEARNING GAP

5–8

hrs/week on repetitive study tasks

RAND Corp Student Survey, 2026

62%

use AI for homework — untrained

RAND Corp, Dec 2025

THE PRINCIPLE

AI should **help students learn better**, not bypass learning. **This workshop teaches the difference.**

10 study workflows. Every student. Before & after — live.

01

Smart Note-Making

AI summarizes chapters into revision-ready notes

02

Concept Explainer

Stuck on a concept? AI explains it 5 different ways

03

Practice Question Generator

Generate unlimited MCQs, short answers & long answers by topic

04

Essay & Answer Brainstormer

AI outlines your essay — you write it. Structure, not shortcuts.

05

Research & Source Finder

Find, summarize & cite sources for projects — not copy-paste

06

Revision Planner

AI builds a day-by-day revision schedule based on your syllabus

07

Math & Science Problem Solver

Step-by-step solutions that teach the method, not just the answer

08

Presentation Builder

Gamma, Canva AI — project presentations from a brief, not scratch

09

Language & Writing Coach

Grammar check, tone adjust, Hindi-to-English — improve, not replace

10

Career & College Explorer

AI maps strengths to careers, colleges & entrance exam strategies

Same study tasks. Fraction of the time.

Real before & after — for tasks every student does every week.

TASK	WITHOUT AI	WITH AI	TIME SAVED
 Summarize a chapter	2 hrs	10 min	92%
 Generate 20 practice MCQs	N/A	2 min	100%
 10-slide project presentation	5–6 hrs	45 min	85%
 Understand a tough concept	30 min	3 min	90%
 Build a revision timetable	1 hr	5 min	92%
 Essay outline + structure	45 min	5 min	89%
 AI doesn't do the learning. It removes friction — so students spend more time understanding, less time formatting. Sources: RAND, Microsoft, Pew Research.			

The 5-letter skill that decides if AI helps you learn or makes you lazy.

We call it **SMART** — same framework, every subject, every board.

BETTER
RESULTS

10x

S

Subject & Scope

Class, board, chapter, topic — be specific

M

My Level

Beginner, intermediate, advanced
— tell AI where you are

A

Ask Clearly

Notes? MCQs? Explanation? Say exactly what you need

R

Review Output

Check facts, spot errors, compare with textbook

T

Think First

Try it yourself first. AI helps you **improve**, not skip

KEY

✗ LAZY PROMPT

Write my essay on climate change.

Result: Copy-paste. No learning. Teacher spots it.

✓ SMART PROMPT

I'm a Class 10 CBSE student. Give me 5 essay points on climate change with Indian examples. Don't write the essay — I'll write it myself. Just give structure + key facts to include.

Result: Student writes. AI assists. Real learning.

Most AI talks end in slides.

This one ends in **6 working tools** — per student.

All 6 deliverables built live for the student's own subjects. None of them theory.

DELIVERABLE 1

AI Study Assistant

Custom GPT for their subjects

DELIVERABLE 2

Practice Question Bank

MCQs + answers for any chapter

DELIVERABLE 3

Revision Planner

Day-by-day schedule for exams

DELIVERABLE 4

SMART Prompt Templates

Reusable prompts for every subject

DELIVERABLE 5

Project Presentation

Built live using Gamma / Canva AI

DELIVERABLE 6

Responsible AI Pledge Card

Personal commitment to ethical use

Every parent's **real worry about AI** — answered in 3 rules.

WHY THIS MATTERS

88% of students use AI for assessments — up from 53% last year. Without training, AI becomes a shortcut that kills critical thinking.
Training — not banning — is the answer.

RULE 1 · INTEGRITY

AI helps you learn. Never cheats for you.

Don't copy AI answers. Use AI to understand, brainstorm, and improve your own work.

RULE 2 · PRIVACY

Never share personal data with AI.

No real names, phone numbers, addresses, or school details in any AI tool.

RULE 3 · VERIFY

AI can be wrong. Always fact-check.

- ✓ Cross-check with textbook
- ✓ Spot hallucinated facts
- ✓ Verify dates & numbers
- ✓ Never submit without reading

Built in, not bolted on. A live “spot the AI mistake” challenge is part of the workshop.

WHY SAY YES

Tomorrow, every student could study **smarter, not harder** — responsibly.

FOR PRINCIPALS & PARENTS, THIS WORKSHOP DELIVERS

Students learn to learn better

Academic integrity preserved

5–8 hrs/week study time freed

CBSE & NEP 2020 aligned

Future-ready career skills

Day-one impact, not months

One workshop can change how your students **study, research, revise, write, and prepare for exams** — starting tomorrow.

Schedule a 20-minute call to customise this for your school.
